# DINNA P. GONZALES

FRONT-END WEB DEVELOPER

AVAILABLE FOR: HIRE AND FREELANCE WORK

◎ OCTOBER 2014 - NOVEMBER 2015 

### Connectivity Inc.

#### > Front-end Software Engineer

- > Built pixel-perfect front-end UI from design mocks of our products
- > Worked with Zurb Foundation to implement responsive grid design and modals
- > Built Backbone models that interact with RESTful APIs to fetch data for our views
- > Built the onboarding workflow for our Customer Insights Application with ReactJs
- > Worked with the Facebook and Twitter API to implement a new feature that allowed business owners to reply directly to their customers' comments on their social media page using our platform
- > Tested ReactJs views by writing Jasmine tests
- > Fixed bugs by refactoring legacy code
- > Participated in design and development discussions in our weekly SCRUM meetings

**Technologies:** Javascript, Node.js, Go Programming Language, Backbone.js, Handlebars.js, ReactJS, Lodash, HTML5, CSS3, SASS **Testing:** Jasmine

◎ JUNE 2014 - PRESENT

**Back-end:** Ruby on Rails

**Databases:** MongoDB, PostgreSQL

**Testing:** RSpec

**Others:** RESTful API, Heroku, Github, Pivotal Tracker

\*SEE PROJECTS AT: HTTP://DINNAPGONZALES.COM

◎ SEPTEMBER 2012 - MARCH 2014 

### Z Gallerie

#### > Point of Sale Auditor

As part of the Accounts Receivable team, I ensured accuracy of daily and monthly bank reconciliations and financial balance sheets; investigated discrepancies in client accounts and determined appropriate methods to resolve them; and corresponded with stores, banks, and other departments to settle chargebacks. I was able to streamline and reduce processing time of daily tasks in half, thereby qualifying me to lead staff training of new and improved procedures.

◎ CLASS OF 2012 

### University of California Los Angeles

#### > Bachelor of Arts in Psychology

Honors: UCLA Dean's Honors List, Fulbright-Hays Scholarship
